

In-house Training

Features

- The custom-tailored in-house training is the most effective training mode.
- Develops internal talent for future QFD and New Product Development specialists essential to organizational growth.
- Held at your business location or venue of your choice, on a mutually agreeable timing and pace.
- Custom-tailored training materials and QFD process that address the unique needs of your organization and your project and process; your associates will be trained on the custom-tailored tools and methods for the optimal efficiency and result.
- The private setting allows candid discussions of internal issues and project needs that are essential to a successful project outcome, competitive considerations, and organizational culture change.
- Students completing an in-house QFD program earn a provisional QFD Belt certificate upon successful completion of the course, and a full status QFD Belt upon completion of several QFD work objects with real customer and project data. (The custom-trained students typically earn full status completion of the training or project.)

Considerations

- At the QFD Institute's Symposium (www.qfdi.org/symposium.html), you can take both public QFD Green Belt® and public QFD Black Belt® courses at significant discounts in a single trip.
- Comparison of In-house QFD Green Belt® vs Public Courses
www.qfdi.org/qfd_green_belt_courses_comparison.html
- Non-QFD training such as Kansei Engineering, Hoshin, TRIZ, etc. may be offered also as a public workshop. Receive email announcements from: www.qfdi.org/newsletters/free_QFD_newsletters.html

Features

- A good starting point for those who are new to QFD, including project teams, facilitators, corporate trainers, project planners, and internal scouts.
- A good way to update the knowledge and learn modern tools for those who learned the traditional House of Quality or 4-phase model years ago.
- An excellent way to explore future in-house training possibilities before making a commitment.
- Taught with generic QFD process and curriculum.
- Held in U.S. cities and overseas several times a year, at the location / dates selected by QFDI.
- Public courses may be also scheduled as an in-house event when there are 5 or more attendees. A generic QFD process and curriculum will be taught.
- Students completing a public QFD Belt course earn a provisional QFD Belt certificate upon successful completion of the course.
- Calendar: www.qfdi.org/events/events.html
